Transaction Overview (Cont.)

Realized Losses:	<input type="checkbox"/> Any loss on a Mortgage Loan attributable to the mortgagor's failure to make any payment of principal or interest as required under the mortgage note.
Net Mortgage Rate:	<input type="checkbox"/> For any Mortgage Loan for any Distribution Date shall be a per annum rate equal to the applicable mortgage rate for such Mortgage Loan as of the first day of the month preceding the month in which such Distribution Date occurs minus the Administration Fee Rate.
Mortgage Insurance Policies:	<input type="checkbox"/> All of the Mortgage Loans with an original loan-to-value value ratio over 80% are covered by mortgage insurance policies.
Optional Termination:	<input type="checkbox"/> If the total outstanding balance of all the Mortgage Loans on any Distribution Date is less than 10% of the total outstanding principal balance of the Mortgage Loans as of the Cut-off Date, the Master Servicer may purchase the Mortgage Loans remaining in the trust, but is not required to do so. If the Master Servicer elects to purchase the Mortgage Loans, the outstanding class principal balance of each class of certificates will be paid in full, together with accrued interest.
Monthly Servicer Advances:	<input type="checkbox"/> The Servicers will collect monthly payments of principal and interest on the Mortgage Loans and will be obligated to make advances of delinquent monthly principal and interest payments, to the extent such amounts are deemed recoverable by the related Servicer. If any Servicer fails to make any such required advance, the Master Servicer will be required to do so subject to its determination of recoverability. Each of the Servicers and the Master Servicer is entitled to be reimbursed for these advances, and therefore these advances are not a form of credit enhancement.
Credit Enhancement:	<input type="checkbox"/> Excess Interest <input type="checkbox"/> Overcollateralization ("OC") <input type="checkbox"/> Subordination
Required Overcollateralization Amount:	<input type="checkbox"/> Overcollateralization refers to the amount by which the aggregate principal balance of the Mortgage Loans exceeds the certificate principal balance of the Offered Certificates. This excess (the "Overcollateralization Amount") is intended to protect the certificateholders against shortfalls in payments on the Offered Certificates. The Required Overcollateralization Amount for the Offered Certificates, which will be fully established at issuance, is anticipated to be approximately 0.35% of the Cut-off Date principal balance of the Mortgage Loans. If, due to losses, the Overcollateralization Amount is reduced below the Required Overcollateralization Amount, Net Monthly Excess Cashflow, if available, will be applied first to pay principal on the Class A Certificates, other than the Class A-IO Certificates, then to pay principal on the Mezzanine Certificates until the Overcollateralization Amount equals the Required Overcollateralization Amount.
Required Overcollateralization Percentage:	<input type="checkbox"/> For any Distribution Date, a percentage equal to (a) the Required Overcollateralization Amount divided by (b) the aggregate principal balance of the Mortgage Loans as of the last day of the related Due Period (after giving effect to scheduled payments of principal due during the related Due Period, to the extent received or advanced, and unscheduled collections of principal received during the related Prepayment Period, and after reduction for Realized Losses incurred during the related Prepayment Period).

Transaction Overview (Cont.)

Allocation of Losses:	<ul style="list-style-type: none">□ On each Distribution Date, Realized Losses on the Mortgage Loans will:<ol style="list-style-type: none">1. first, reduce the Net Monthly Excess Cashflow;2. second, reduce the Overcollateralization Amount, until reduced to zero;3. third, reduce the certificate principal balance of the Class M-3 Certificates, until the certificate principal balance thereof has been reduced to zero;4. fourth, reduce the certificate principal balance of the Class M-2 Certificates, until the certificate principal balance thereof has been reduced to zero; and5. fifth, reduce the certificate principal balance of the Class M-1 Certificates, until the certificate principal balance thereof has been reduced to zero.□ There will be no allocation of Realized Losses to the Class A Certificates. Investors in the Class A Certificates should note, however, that although Realized Losses cannot be allocated to such Certificates, under certain loss scenarios there may not be enough principal and interest on the Mortgage Loans to distribute to the holders of the Class A Certificates all principal and interest amounts to which they are then entitled.□ Once Realized Losses have been allocated to the Mezzanine Certificates, such amounts with respect to such Certificates will no longer accrue interest, such allocated amounts will not be reinstated thereafter and no amounts will be distributed with respect to those written down amounts (even if Net Monthly Excess Cashflow and/or the Overcollateralization Amount are greater than zero on any subsequent Distribution Date).
Overcollateralization Increase Amount:	<ul style="list-style-type: none">□ An Overcollateralization Increase Amount for any Distribution Date is the amount of Net Monthly Excess Cashflow actually applied as an accelerated payment of principal to the extent the Required Overcollateralization Amount exceeds the current Overcollateralization Amount.
Overcollateralization Reduction Amount:	<ul style="list-style-type: none">□ An Overcollateralization Reduction Amount for any Distribution Date is the amount by which the current Overcollateralization Amount exceeds the Required Overcollateralization Amount after taking into account all distributions of principal required to be made on the Distribution Date.
Notional Amount:	<ul style="list-style-type: none">□ The notional amount of the Class A-IO Certificates will be as follows: the lesser of (a) from and including the 1st through the 6th Distribution Date \$34,045,000; from and including the 7th through the 16th Distribution Date \$27,236,000; from and including the 17th through the 19th Distribution Date \$20,427,000; from and including the 20th through the 23rd Distribution Date \$13,618,000; on the 24th Distribution Date \$9,533,000; and thereafter \$0 and (b) the then aggregate principal balance of the Mortgage Loans (prior to giving effect to scheduled payments of principal due during the related Due Period, to the extent received or advanced, and unscheduled collections of principal received during the related Prepayment Period).
Stepdown Date:	<ul style="list-style-type: none">□ Is the earlier of (i) the first Distribution Date on which the certificate principal balances of the Class A Certificates have been reduced to zero and (ii) the later to occur of (x) the Distribution Date occurring in March 2007 and (y) the first Distribution Date on which the Credit Enhancement Percentage (the "Credit Enhancement Percentage of the Class A Certificates" or "CE%") (calculated for this purpose only after taking into account the receipt of principal on the Mortgage Loans, but prior to any distribution of principal to the holders of the certificates) is greater than or equal to approximately 11.00%

Transaction Overview (Cont.)

Credit Enhancement Percentage:

- The Credit Enhancement Percentage for any class of Offered Certificates and any Distribution Date is the percentage obtained by dividing (x) the sum of (i) the aggregate certificate principal balance of the class or classes of Offered Certificates subordinate thereto and (ii) the Overcollateralization Amount by (y) the aggregate principal balance of the Mortgage Loans, calculated after giving effect to scheduled payments of principal due during the related Due Period, to the extent received or advanced, and unscheduled collections of principal received during the related Prepayment Period and distribution of the Principal Distribution Amount to the holders of the Certificates then entitled to distributions of principal on the Distribution Date.

<u>Class</u>	<u>(Moody's / S&P)</u>	<u>Initial CE %</u>
A	Aaa / AAA	5.50%
M-1	Aa2 / AA	2.85%
M-2	A2 / A+	1.10%
M-3	Baa1 / BBB+	0.35%

Net Monthly Excess Cashflow:

- For any Distribution Date is equal to the sum of (i) any Overcollateralization Reduction Amount and (ii) the excess of the Available Distribution Amount over the sum of (x) the Senior Interest Distribution Amount for such Distribution Date payable to the holders of the Class A Certificates, (y) the Interest Distribution Amount for such Distribution Date payable to the holders of the Mezzanine Certificates and (z) the amount of principal required to be distributed to the holders of the Offered Certificates on such Distribution Date.

Net WAC Pass-Through Rate:

- (A) for the March 2004 Distribution Date through the February 2006 Distribution Date, a per annum rate equal to (1) the weighted average of the Net Mortgage Rates of the Mortgage Loans as of the first day of the month preceding the month in which such Distribution Date occurs minus (2) the pass-through rate for the Class A-IO Certificates for such Distribution Date multiplied by a fraction, the numerator of which is (x) the Notional Amount of the Class A-IO Certificates immediately prior to such Distribution Date, and the denominator of which is (y) the aggregate principal balance of the Mortgage Loans as of the first day of the month in which such Distribution Date occurs and (B) for each Distribution Date thereafter, the weighted average of the Net Mortgage Rates of the Mortgage Loans as of the first day of the month preceding the month in which such Distribution Date occurs. In the case of the Class A-1 Certificates, the Net WAC Pass-Through Rate will be adjusted on an actual/360 basis.

Net WAC Rate Carryover Amount:

- If on any Distribution Date the pass-through rate for the Class A Certificates, other than the Class A-IO Certificates, and the Mezzanine Certificates is limited to the Net WAC Pass-Through Rate, the "Net WAC Rate Carryover Amount" will be equal to the sum of (i) the excess of (a) the amount of interest such Class A Certificates or Class M Certificates would have been entitled to receive on such Distribution Date if the Net WAC Pass-Through Rate had not been applicable to such certificates over (b) the amount of interest accrued on such classes at the applicable Net WAC Pass-Through Rate plus (ii) the related Net WAC Rate Carryover Amount from the prior Distribution Date not previously distributed together with interest thereon at the related pass-through rate for the most recently ended Interest Accrual Period. Any Net WAC Rate Carryover Amount will be paid on such Distribution Date or future Distribution Dates to the extent of available funds.
